To our valued Customers:

Benfield's' COVID-19 update

Benfield is following the guidance of global health experts at the World Health Organization (WHO) and U.S. Centers for Disease Control (CDC) on preventing the spread of the COVID-19 virus. We are reminding our employees about frequent hand washing, and we are regularly cleaning and disinfecting our facilities and equipment. Importantly, we are asking that our employees stay home from work if they feel sick.

WE ARE OPEN!

The Governor has stipulated that only essential businesses stay open and electrical is one of them. We have been supporting the electrical industry for almost 70 years and we are not about to stop now. We must be on hand to fulfill whatever services/products are needed.

- We have staff working on site as well as remotely.
- We are communicating with federal and state agencies and are poised to support all emergency disaster relief initiatives.
- We are monitoring all major project construction sites and following guidance from labor unions and construction officials
- Our trucks are still scheduled for delivery
- Our two counters are still open for business and practicing social distancing. We ask that if you must pick up orders at our counters to please call ahead so it can be ready.
- Our hours are still the same.

These are challenging times for all of us. We appreciate your continued support as we come together to minimize the spread of COVID-19. If you have any questions, please reach out to us.

Thank you all,

Benfield Electric Supply Companies
